

Oncology Research Fellows
NHMRC Clinical Trials Centre
Reference no. 1334/0717

- **Join a leading organisation in the design, conduct, and reporting of cancer clinical trials**
- **Work with five of Australia's leading cancer cooperative trials groups**
- **Academic appointments at Level A or B**

About the opportunity

The NHMRC Clinical Trials Centre (CTC) is funded by the National Health and Medical Research Council and is a research centre of Sydney Medical School at the University of Sydney.

CTC is a leader in the design, conduct, and reporting of large-scale clinical trials in cancer and other diseases. It also researches trial methods and conducts systematic reviews. It is the coordinating centre for 5 of Australia's leading cooperative oncology trials groups: the Australasian Gastro-Intestinal Trials Group (AGITG), the Australian New Zealand Gynaecological Oncology Group (ANZGOG), the Australian and New Zealand Urogenital and Prostate Cancer Trials Group (ANZUP), the Australasian Lung cancer Trials Group (ALTG), and the Cooperative Oncology Group for Neuro-oncology (COGNO); and, the statistical centre for the Australian New Zealand Breast Cancer Trials Group (ANZBCTG). These groups are non-profit organisations dedicated to the conduct of national and international trials in their respective areas.

About you

Oncology Clinical Research Fellowships (Academic A or B) are designed for individuals keen to develop skills, expertise and careers in cancer clinical trials research. Candidates should have recently completed all or most of their training in a clinical oncologic speciality (medical, radiation, or surgical). Past research, publications and presentations are desirable but not essential. Oncology Clinical Research Fellows will work with one or more of partner cooperative groups and contribute to their entire program, as required. This may include working with co-investigators, statisticians, data managers and trial coordinators to develop trial concepts, protocols, grant applications, reports, meeting presentations and journal articles. They will also provide day to day clinical support adjudicating on eligibility, treatment, and adverse events. Research Fellows will participate in research advisory committees, operational executive committees, and other subcommittees of these groups. **Applicants should be registered or eligible to register with the NSW medical board.**

These positions are either full-time or part-time, for a fixed term for 12 months and subject to the completion of a satisfactory probation period for new appointees with the possibility of further offer of employment. Membership of a University approved superannuation scheme is a condition of employment for new appointees.

Remuneration package: a competitive remuneration package is available (consisting of a base salary, clinical loading, leave loading and up to 17% employer's contribution to superannuation).

About us

Since our inception 160 years ago, the University of Sydney has led to improve the world around us. We believe in education for all and that effective leadership makes lives better. These same values are reflected in our approach to diversity and inclusion, and underpin our long-term strategy for growth. We're Australia's first university and have an outstanding global reputation for academic and research excellence. Across our campuses, we employ over 6000 academic and non-academic staff who support over 60,000 students.

We are undergoing significant transformative change which brings opportunity for innovation, progressive thinking, breaking with convention, challenging the status quo, and improving the world around us.

For more information on the position and University, please view the candidate information pack available from the job's listing on the University of Sydney careers website.

All applications must be submitted via the University of Sydney careers website. Visit sydney.edu.au/recruitment and search by the reference number to apply.

Closing date: 11.30pm 14 August 2017

The University of Sydney is committed to diversity and social inclusion. Applications from people of culturally and linguistically diverse backgrounds; equity target groups including women, people with disabilities, people who identify as LGBTIQ; and people of Aboriginal and Torres Strait Islander descent, are encouraged.

If we think your skills are needed in other areas of the University, we will be sure to contact you about other opportunities.
